White Willow Bark Extract

Cat. No. EXTC-044

Lot. No. (See product label)

Introduction

Description	White willow bark extract is prepared from bark of Tamaricaeeae family plant Salix babylonicaL. White Willow Bark Extract contains salicin, which the body converts to salicylic acid and has the same effect on the body as aspirin without any of the side effects. White willow bark extract has been used medicinally for hundreds of years.
