Rice Bran Extract

Cat. No. EXTC-046

Lot. No. (See product label)

Introduction

Description

Rice bran extract is prepared from the rice husk. The main ingredient of rice bran extract, Ferulic acid is an antioxidant which neutralizes free radicals that could cause oxidative damage of cell membranes and DNA. Rice bran extract, ferulic acid helps to prevent damage to our cells caused by ultraviolet light. Ferulic acid is often added as ingredient of anti-aging supplements.
