Pine Bark Extract

Cat. No. EXTC-048

Lot. No. (See product label)

Introduction

Description	Pine bark extract, rich in proanthocyanidin, is a bioflavanoid complex extracted from the bark of the pinus massoniana Lamb pine tree. Pine bark extract is a powerful antioxidant, which play a crucial role in repairing and protecting cells in the body. Pine bark extract powder help shield the body from free radical molecules, which are harmful by products of metabolism and exposure to environmental pollutants.
