Creative Enzymes®

Native Aspergillus sp. Cell Wall Degrading Enzyme Complex

Cat. No. NATE-0731

Lot. No. (See product label)

Introduction

Description	Multi-enzyme complex containing a wide range of carbohydrases, including arabanase, cellulase, β-glucanase, hemicellulase, and xylanase.
Applications	Cell Wall Degrading Enzyme Complex was shown to be an effective enzyme for the extraction of polyphenols from unripe apples.
Synonyms	Cell Wall Degrading Enzyme Complex; Cell Wall Degrading Enzyme Complex from Aspergillus sp.; Lysing Enzyme from Aspergillus sp.

Product Information

Source	Aspergillus sp.
Concentration	~1.2 g/mL at 25°C (lit.)
