Red Clover Extract

Cat. No. EXTC-199

Lot. No. (See product label)

Introduction

Applications	Red Clover Extract can be used in functional food and health care products.

Product Information

Source	Red clover is considered to be one of the richest sources of isoflavones, which are water-soluble chemicals that act like estrogens (known collectively as phytoestrogens).
Appearance	Brown powder
Purity	isoflavones 2.5% 8% 20% HPLC
Function	It has been used medicinally to treat a number of conditions. Traditionally, these have included cancer, whooping cough, respiratory problems, and skin inflammations, such as psoriasis and eczema. Red clover was thought to "purify" the blood by acting as a diuretic (helping the body get rid of excess fluid) and expectorant (helping clear lungs of mucous), improving circulation, and helping cleanse the liver. red clover contains isoflavones, plant-based chemicals that produce estrogen-like effects in the body. Isoflavones have shown potential in the treatment of a number of conditions associated with menopause, such as hot flashes, cardiovascular health, and osteoporosis.
