Creative Enzymes®

Native Pseudomonas fragi mutant strain Endoproteinase Asp-N

Cat. No. NATE-0222

Lot. No. (See product label)

Introduction

Description	Peptidyl-Asp metalloendopeptidase (EC 3.4.24.33, endoproteinase Asp-N, peptidyl-Asp metalloproteinase) is an enzyme. This enzyme catalyses the following chemical reaction:Cleavage of Xaa-Asp, Xaa-Glu and Xaa-cysteic acid bonds. This metalloenzyme is isolated from Pseudomonas fragi.
Synonyms	endoproteinase Asp-N; peptidyl-Asp metalloproteinase; EC 3.4.24.33; 9001-92-7; peptidyl-Asp metalloendopeptidase

Product Information

Source	Pseudomonas fragi mutant strain
Form	lyophilized powder
EC Number	EC 3.4.24.33
CAS No.	9001-92-7

Usage and Packaging

Package	vial of 2 μg

Storage and Shipping Information

Storage	2-8°C
